THE INAUGURAL CHAR-NIE CHEN DISTINGUISHED LECTURE

Department of Psychiatry, CUHK

About Professor CHEN Char-nie Research and Education Fund

Professor CHEN had been our Foundation Chairman and Professor of Psychiatry since 1981. He served as Chairman for the first 17 years after the establishment of the Faculty of Medicine and retired in August 1998 from CUHK. Professor CHEN was awarded Emeritus Professor in January 2018. He is a distinguished scholar, psychiatrist, researcher and educator who has not only helped build up our Faculty of Medicine, but also contributed significantly to the mental health development and research both locally and globally. The Department of Psychiatry is grateful for his consent to establish a research and education fund under his name. This fund will support (i) recruitment of distinguished visiting scholars; (ii) academic research; (iii) departmental activities in promoting mental health.

How Do Doctors Heal? Reimaging Care in Medicine and Psychiatry

PROFESSOR ARTHUR KLEINMAN, MD

Esther and Sidney Rabb Professor of Anthropology
Professor of Medical Anthropology in Global Health and
Social Medicine, Professor of Psychiatry,
Harvard Medical School

***Mixed-mode event (Face-to-face and Zoom)**

***Professor KLEINMAN will deliver his talk via Zoom**

Linkage with Department of Psychiatry CUHK

Professor Arthur KLEINMAN has longstanding academic links with us. He has been our visiting scholar and external examiner for postgraduate research students since the 1990s. As the Head of the Department of Social Medicine at Harvard University, he offered travel scholarships for our academic staff to visit his department and establish research collaborations. Professor KLEINMAN played a major role in a multisite research project on Neurasthenia and Chronic Fatigue Syndrome with Professor CN CHEN, Professor Sing LEE & Professor YK WING.

Friday, 5 November 2021 at 6-7pm (HK Time)

(followed by Q&A Session)

**Shaw Auditorium, G/F, Postgraduate Education Centre,
Prince of Wales Hospital**

(Tel: 2607-6025 / Email: cherylleung@cuhk.edu.hk)**

CME/CPD in application

ACADEMIC LECTURE

Dr. Michael Yuxuan NI
Clinical Associate Professor
Division of Community Medicine and
Public Health Practice
HKU

Date: 25 Nov 2021 (THU)

Time: 14:30 - 16:00

Venue: Zoom Lecture

Topic: Emerging determinants of mental health and the evolution of mental health in Hong Kong under the COVID-19 pandemic

Abstract:

Hong Kong and the rest of the world have recently experienced multiple population shocks in the form of epidemics and collective actions. The once-in-a-century COVID-19 pandemic and the stringent countermeasures (PHSMs) have resulted in major stressors including the risk of infection, financial loss, and disruptions in nearly all aspects of life. Lockdowns, stay-at-home orders and physical distancing have led to the largest enforced isolation period in human history. At the same time, protests and other collective actions have affected more than 190 jurisdictions during COVID-19. As such, individuals in Hong Kong and around the world are exposed to a wide spectrum of stressors that could carry substantial mental health consequences. However, despite the extensive history of collective actions and epidemics, their impact on mental health was largely unassessed until recently. This talk will systematically review the literature on epidemics and collective actions, and present longitudinal findings of Hong Kong's mental health burden, risk factors and health care needs with potential implications for mental health professionals.

Biography:

Dr Michael Ni is Clinical Associate Professor in the Division of Community Medicine and Public Health Practice at the University of Hong Kong School of Public Health. He trained in internal medicine at Queen Mary Hospital, pursued postgraduate studies at Harvard University, and obtained a higher doctorate by research in psychiatric epidemiology from the University of Hong Kong. Dr Ni is a specialist in public health medicine and has been conferred Fellowships by the Hong Kong Academy of Medicine (Community Medicine), Hong Kong College of Community Medicine, and the United Kingdom's Faculty of Public Health, and Membership of the Royal College of Physicians.

As a public health physician, Dr Ni's interdisciplinary research spans across different fields while maintaining a focus on population mental health. His primary area of research is in psychiatric epidemiology, and revolves around prevailing and emerging determinants of mental health. Since 2014, Dr Ni's research programme has been supported by over 40 grants with funding over HK\$100 million as PI/Co-PI.

Dr Ni is Programme Director for the FAMILY Cohort (n=46,000), a large population-based cohort study in Hong Kong. He serves as a Principal Investigator and on the Executive Committee of the State Key Laboratory of Brain and Cognitive Sciences, and holds a joint appointment with the Faculty of Architecture. Dr Ni is the Principal Investigator for the World Health Organization World Mental Health Composite International Diagnostic Interview-5 in Hong Kong. In recognition of achievements in mental health research, Dr Ni was awarded the World Psychiatric Association Michele Tansella Award and the Lo Ying Shek Chi Wai Foundation Award for Young Investigator. Dr Ni's research has been cited in BBC, Bloomberg, CNN, The Guardian, among others.

Registration is required. For enquiries, please contact 26076025
